“ Fusion de l’Art et du Métal ”

Faire d’un simple interrupteur un objet d’art. Une audace qui inspire **la société Sixtes** à dessiner des collections d’appareillage design conjuguant luxe et modernité.

Fasciné par les métiers d’arts et amoureux des matériaux nobles, son créateur, **Marc Gresset**, s’appuie sur l’héritage de savoir-faire précieusement élaborés au fil des siècles pour donner vie à des objets singuliers.

Fusion de l’art et du métal, son matériau de prédilection, patines précieuses, couleurs profondes, art du **guillochage**, la tradition, exclusivement française, se perpétue dans plusieurs gammes de produits innovants aux lignes pures et raffinées.

De véritables créations d’orfèvre...

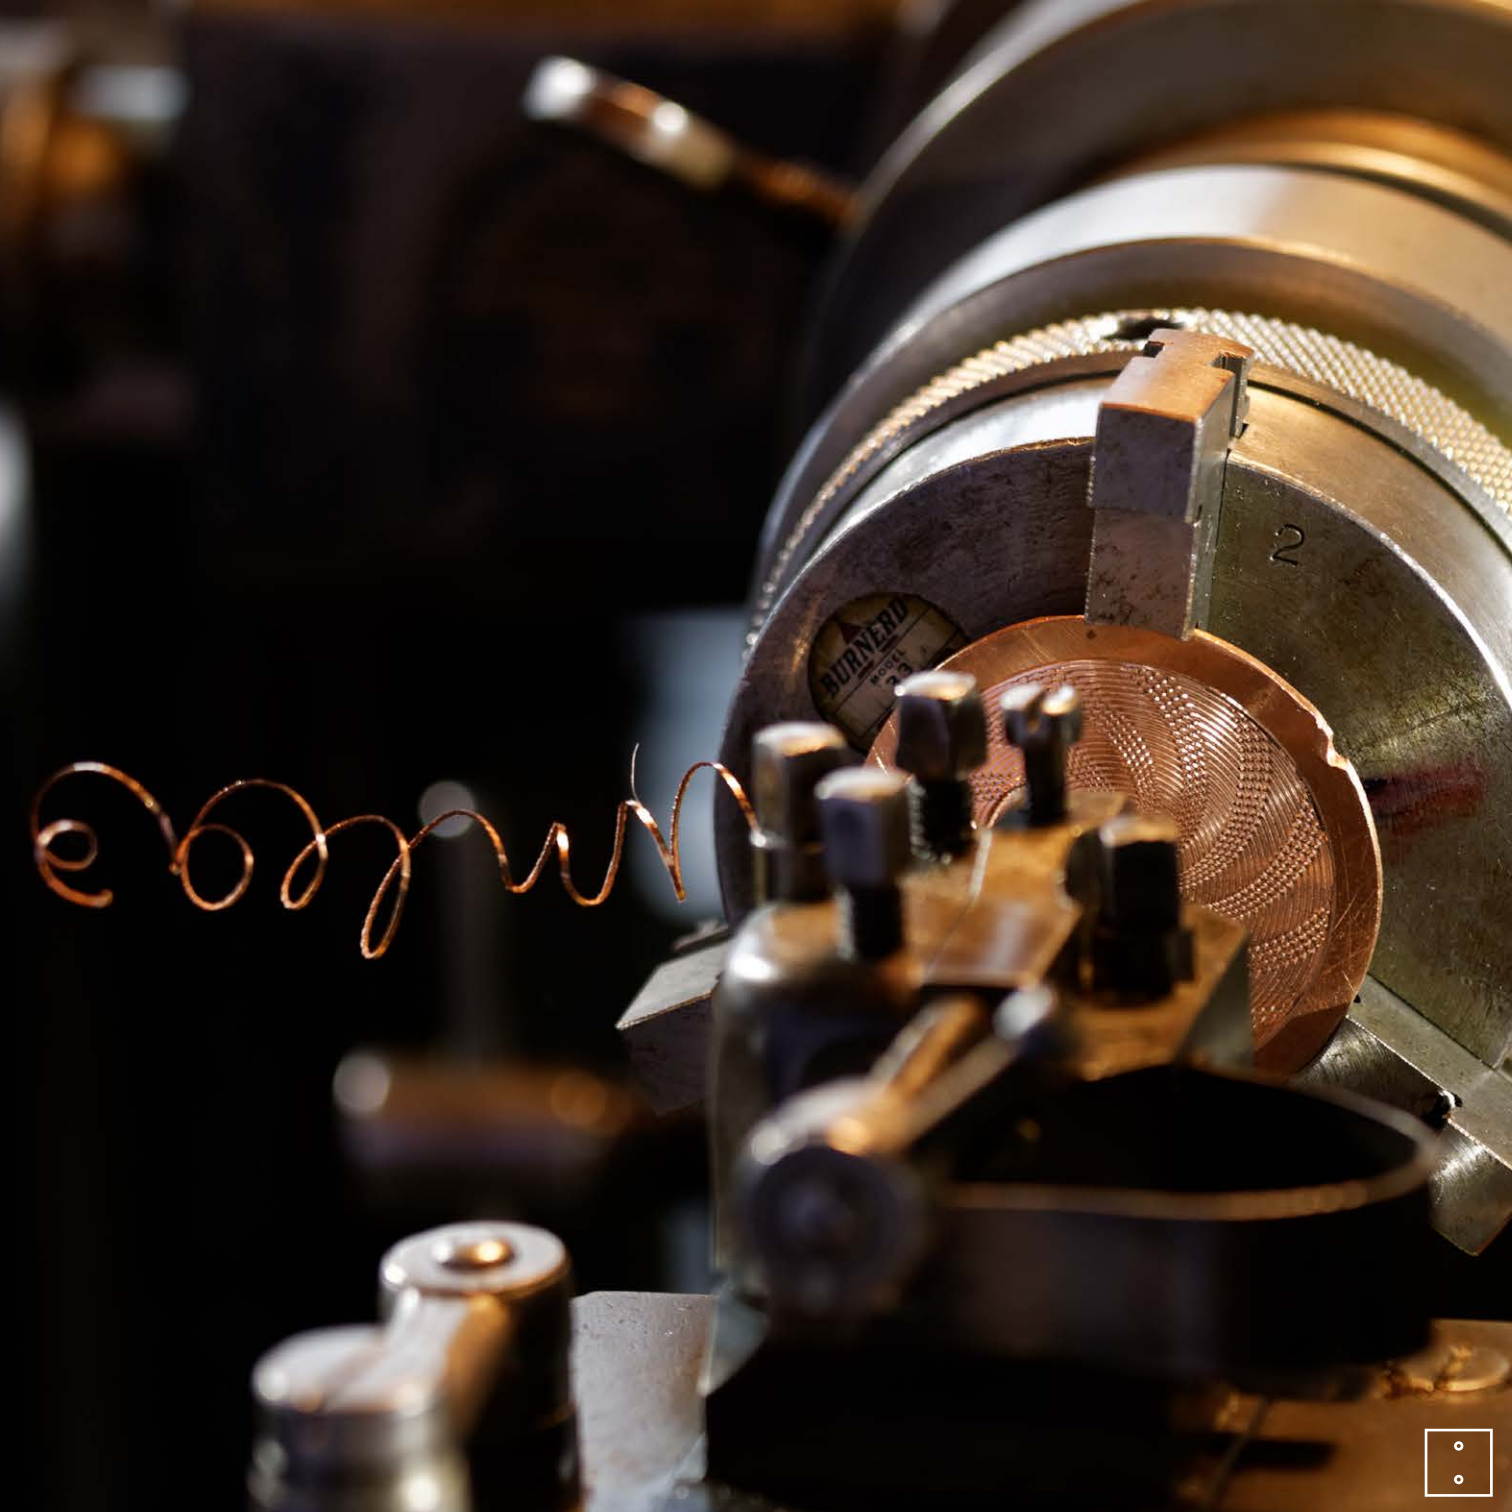

Making a simple switch a work of art. A daring idea that inspires **the company Sixtes** to create collections of designer fittings combining luxury and modernity..

Fascinated by arts and crafts and a lover of fine materials, its designer, **Marc Gresset**, draws on the heritage of an expertise carefully developed over the centuries to give life to unique objects.

A fusion of art and metal, his preferred material, precious patinas, deep colours, **the art of guillochage**, a french tradition, is perpetuated in many innovative product ranges with sleek and refined lines.

Genuine creations by an expert in **metal artwork**...

“6, tout un symbole”

Marc Gresset,
fondateur de Sixtes Paris

Animé par l'envie «de rendre le simple extraordinaire», Marc Gresset décide, en 2010, d'offrir au marché de l'appareillage électrique au design jusqu'alors limité, une nouvelle façon d'aborder le luxe en créant des interrupteurs et des prises électriques aux lignes pures et soignées. Sixtes Paris, jeune société 100% française, voit le jour.

Patines précieuses, polissage soyeux, couleurs généreuses, guillochage... Les interrupteurs Sixtes Paris, petites plaques de métal au départ, sont sublimes par les mains de Marc Gresset qui en fait des bijoux pour des intérieurs d'exception.

Une anecdote qui en dit long sur la personne créateur, toujours à la recherche de la «perfection». Jusque dans le soin apporté au nom donné à sa société où tout fait honneur au chiffre 6, parfait par excellence. Ce dernier est, en effet, le produit et la somme des trois premiers chiffres entiers naturels ($1 \times 2 \times 3 = 1 + 2 + 3 = 6$) et la somme algébrique et numérolologique de toutes les lettres (24 correspond à $2 + 4 = 6$). Tout un symbole.

Driven by the ambition to "make the simple extraordinary", Marc Gresset decides in 2010 to offer the electrical equipment market with previously limited design, a new way of approaching luxury by creating switches and electric outlets with pure and neat lines. Sixtes Paris, young company 100% French, sees the day.

Precious patinas, silky polishing, generous colors, guillochage ... Sixtes switches, small metal plates at first, are sublimated by Marc Gresset own two hands who turns them into jewels for exceptional interiors.

An anecdote that says a lot about the creative person, always in search of "perfection". The attention to each and every details down to the name given to his company, where everything honors to the number 6, perfect by excellence.

The latter is not only both the product and the sum of the first three natural integers ($1 \times 2 \times 3 = 1 + 2 + 3 = 6$) but also the algebraic and numerological sum of all the letters (24 corresponding to $2 + 4 = 6$). 6, a whole symbol.

BROSSAGE, POLISSAGE, 6ixtes met à l'honneur le travail des métaux. L'association de brossages doux et forts à de délicats polissages miroirs met en valeur la pureté des lignes et des matériaux utilisés.

PATINE, procédé artisanal entièrement réalisé dans nos locaux, permettant de créer des tons soyeux sur les laiton, bronze, acier et aluminium.

Le GUILLOCHAGE, ancien métier méconnu du grand public mais très prisé par les acteurs du luxe, nous permet de mettre en lumière les techniques décoratives réservées jusqu'ici à la joaillerie, et à l'horlogerie.

FONDERIE et ECO RESPONSABILITE, la fabrication de l'ensemble de nos produits se fait à partir de laiton, de bronze et d'aluminium. Afin de recycler les copeaux et chutes d'usinage, nous nous sommes équipés de fours à l'aide desquels nous élaborons de nouvelles matières, que vous pourrez apprécier au sein de la collection « primitive ».

GRAVURE MECANIQUE et MARQUAGE LASER, viennent compléter notre offre en mélangeant technologie et art, nous permettant de réaliser ainsi vos désirs.

BRUSHING, POLISHING, 6ixtes honors the work of metals. The combination of soft and strong brushing with delicate polishing mirrors highlight the purity of the lines and materials used.

PATINE, artisanal process entirely realized in our premises, allowing to create silky tones on brass, bronze, steel and aluminum.

The GUILLOCHAGE, ancient profession often unknown by the general public but highly prized by the actors of luxury, allows us to highlight the decorative techniques reserved up until now to jewelry and watchmaking.

FONDERIE and ECO RESPONSIBILITY, the manufacture of all our products is made from bronze, brass and aluminum. In order to recycle chips and waste machining, we have equipped ourselves with an oven to help us develop new materials, which you will appreciate in the "primitive" collection.

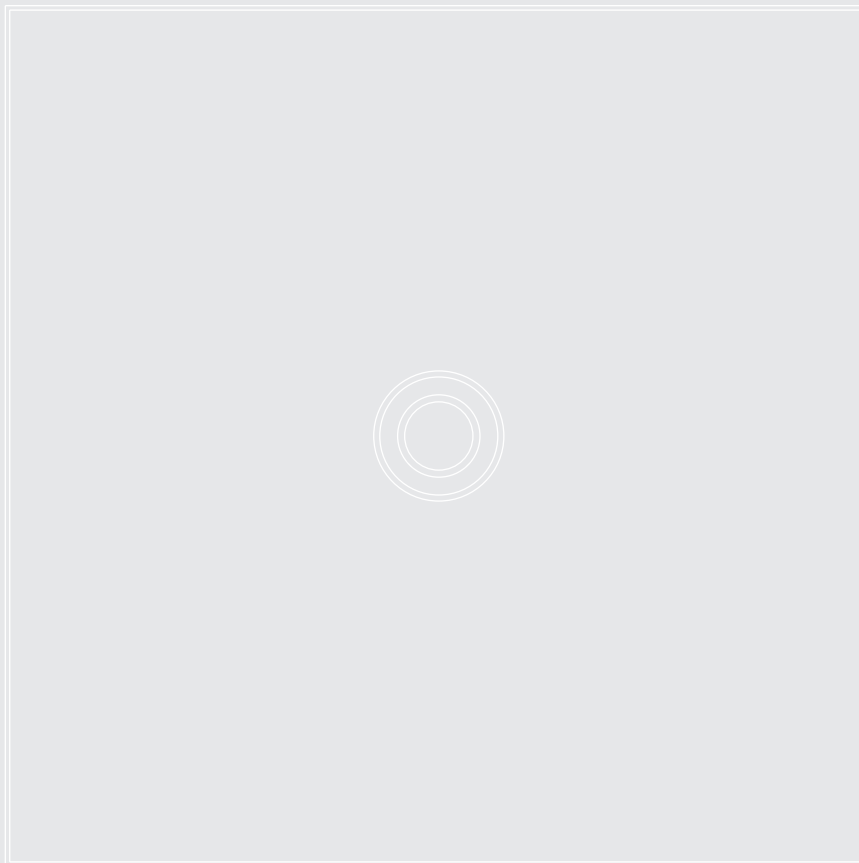

MECHANICAL ENGRAVING and LASER MARKING, complete our offer by mixing technology and art, allowing us to fulfill your desires.

C A R A C T E R I S T I Q U E S T E C H N I Q U E S

Pour l'ensemble de nos équipements électriques, prise de courant, téléphone, RJ45, télévision, ... ainsi que nos interrupteurs, nous avons fait le choix de travailler avec des entreprises françaises, leaders dans leur domaine.

L'ensemble de nos équipements sont compatibles avec les boîtiers d'encastrement standards.

Nos plaques peuvent également être créées avec un chanfrein ou un bord droit.
